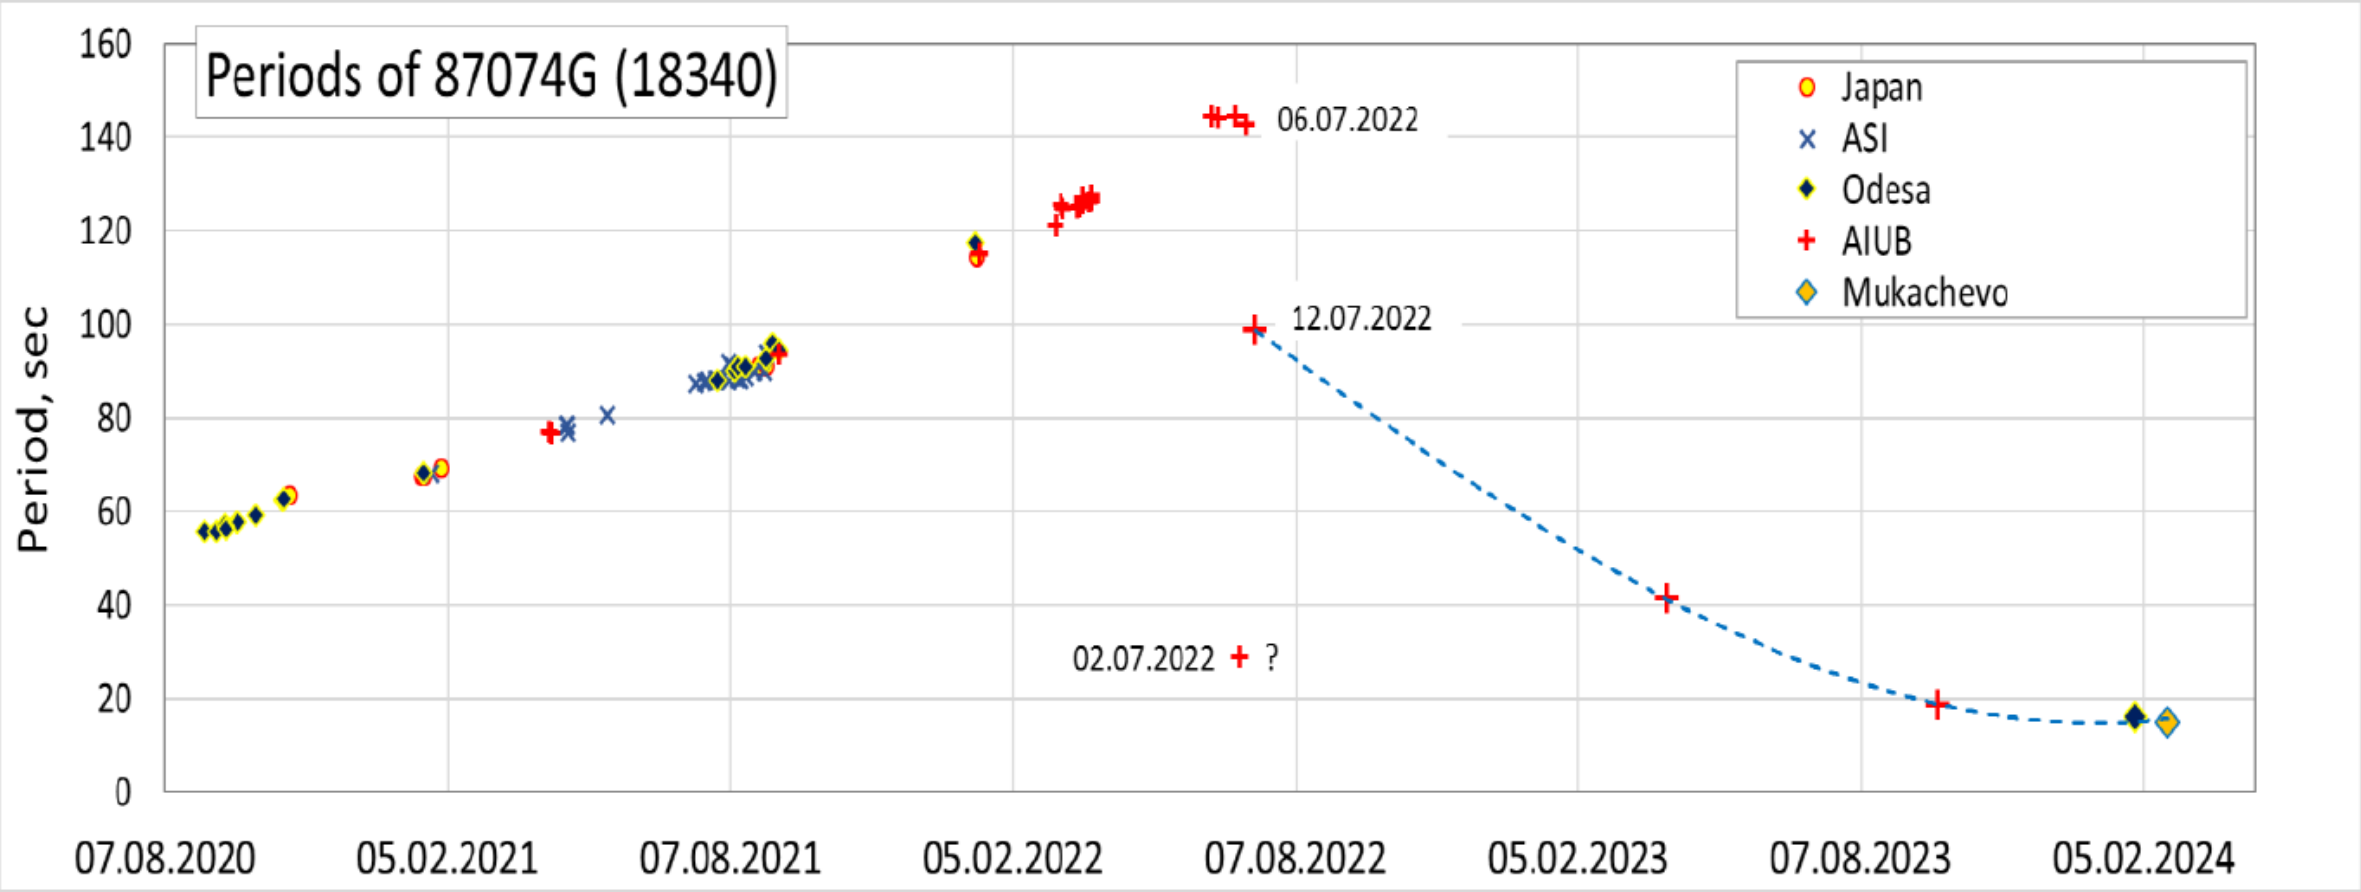
WG1/WG2 Joint Session
WG1 IT 41.2 Spin Rate Change of 87074G

T. Schildknecht

Astronomical Institute, University of Bern, Switzerland

42nd IADC Annual Meeting,
April 16th – 19th 2024, Bengaluru, India

SSAU Results including ESA (AIUB) Data



Summary – Lessons Learned

- 87074G shows sudden decrease of period in July 2022:
  30% within 6 days
  reason for spin-up? spin axis orientation change?
- Modeling of spin rate change?
